

Date: September 1, 2009

To: National Board

This letter is in reference to the upcoming Forum. I thought I would share some of the comments I have received so far, (please see the attachment), concerning changing Forum. This years Forum needs to be solely about Postmaster's issues and only that. We need to stay away from using our organizations time and money to take USPS issues to the hill. Our members have used their AL and money to benefit the USPS and how are they repaid, they take their convention leave. With the current condition our members find themselves in, this board needs to take steps to begin a new movement within the frame work of Forum. With a new found creed or purpose:

Our commitment to bring Dignity & Respect back to the Postmaster position by improving our freedom to manage with greater protection from undo persecution or threats, to be fairly compensated above the craft employees and to restore the benefits lost over the past 17 years is the battle cry of this board and every member of League hence forth!

I know you have a committee looking at Forum. I ask you to empower them to move forward in a new direction. To design Forum in a way that moves our members to action. To enable the membership to have a say in their future and League's. The only thing holding us back is ourselves.

Richard Sprague
Colorado State President
